

# THE EARTH IS THE MOST IMPORTANT THING WE SHARE.

Dear Travellers,

It is becoming essential to rethink the ways in which hotels operate in order to reduce our impact on our resources. The threat of climate change is not a short-term phenomenon and we need to ACT all together.

MJ Holidays is partnering with Signe Natir which is a community driven project led by Business Mauritius to make our island more people and environmentally friendly.

#### Our aim:

- To be recognized as an eco-friendly company in our country
- To work in harmony with nature and the community towards a sustainable and inclusive future for Mauritius
- To have our name listed alongside those who will be creating a greener environment for present and future generations

#### Join us in the following initiatives:

1. Reduce your use of water by taking shorter showers and bathing less frequently
2. Reduce the air-conditioning consumption: Only use it in summer and for a shorter period of time, and favour natural ventilation by opening doors and windows.
3. Turn off electrical appliances and lights when you are not using them, especially when you are away.
4. Sort plastic and glass waste into the boxes provided in each unit for recycling.
5. Avoid too many sheet and towel replacements.
6. Consume Local: when buying food, drinks, gifts, souvenirs, please try to purchase local products first. "Made in Moris" : A label has been created accordingly.
7. Visit more cultural sites and less shopping malls, so as to encourage the Mauritian culture and heritage development. Our concierges can guide you to sites such as La Tour Martello, L'Aventure du Sucre, Les Salines de Yemen-Tamarin, Ebony Forest, Aapravasi Ghat, La Maison Eureka, Le Château de Labourdonnais, the Blue Penny Museum.
8. Experience and enjoy local music, dance and theatre.
9. Join "clean-up days" when possible.
10. Learn about the local NGO world depending on what you are interested in and support them. And leave feeling inspired by new and positive experiences..

Do you have any ideas for action or areas where we can improve? Your suggestions are welcome.

*This eco-friendly initiative was explained to you before your arrival at Marguery Villas to ensure you enjoy the best and most responsible holiday ever. Ready to join the adventure? Tell your Concierge, who will happily guide you.*
